C. E. JONES, EDITOR

The recall of the French ambassador to the Vatican is regarded in Paris as the first step towards the disestablishment and disendowment of the church in France, which, it is thought, will be the result of the Pope's refusal to recede from the position he has taken in relation to China.

The City Council of Galveston appropriated \$15,000 for the benefit of the storm sufferers of that city. The citizens have subscribed \$5,000 for the same purpose. This will only afford temporary relief, as over 150 families have been rendered homeless and destitute by the storm.

On the 31st ultimo great consternation and alarm were caused in all eastern cities by violent earthquake shocks. The shocks were felt in Washington, Indianapolis, Cleveland, Detroit, Cincinnati, Raleigh, Augusta, Chicago, Columbus, Richmond, Louisville, Savannah, Memphis, St. Louis, Milwaukee, New York, Charleston, Dubuque, Mobile, Baltimore, Nashville, Charlotte, N. C. and Lexington.

England has suggested to the Powers that it would be unwise to inflict further injury upon Prince Alexander by endorsing the conspiracy, or any of the acts of the evil doers at Sofia, pointing out that Alexander has shown himself to be in accord with the vast majority of his subjects, and therefore it would be not only unfair but highly immoral on the part of the Powers to interfere with his reinstatement. In this the Powers have acquiesced.

A Washington dispatch states that the authorities have decided that all lands that have been surveyed and not patented are subject to tax. As quickly as the proper orders are prepared, they will be issued to officers all over the country, directing the collection of such tax.

This will affect vast tracts of land that have been surveyed, but, because not patented, not held taxable. The Department further states that surveys of all occupied lands will be hurried up and the lands thus made liable to taxes.

Butte Miner launches this plan in connection with the proposed contest of Tilden's will. It is very simple:

Let every legator publish his will in his nearest paper for three months and a copy of the publication be recorded in the archives of his county. Then if the legatee wishes to contest the will he should be compelled to do so during its publication or forever after hold his peace. The practice of legatees skulking around until after a man dies and then coming forward and swearing that the legator is weak-minded or crazy because he—the legatee—didn't get what he expected, is about played out—or should be.

Over 300 miners have been laid off at the Anaconda, in Butte, Montana. Other mines will soon follow the example set by the Anaconda, and thousands will be thrown out of employment.

The Holmes mine and mill, at Candalaria, Nev., have been shut down, and the 35 or 40 employees discharged.

The Manhattan company's mines and mills have been shut down; a carload of people left Austin, Nev. the other day, and that town will soon be depopulated in consequence.

Some of the mines at Tombstone, Arizona, have been shut down, and others say they must soon follow.

All this is owing to the heavy discount on silver, caused by the corrupt trucking to the gold bugs of Wall street.

On motion a vote of thanks was tendered to Mr. Josiah Vesey for the use of his hall.

It is estimated that the power of India to absorb silver is reaching its limit, and that England, before long, will be begging the United States to join her in the free coinage of gold and silver on an agreed basis.

Emperor William, on hearing of the seizure and kidnapping of Prince Alexander, wrote a sharp letter to the Czar, expressing amazement and indignation.

The Umatilla Indians have about 18,000 acres in wheat this year.
